595RS-R

WR 30/40/ 45/50

New, semi-slick, sport competition 595RS-R- designed for exceptional traction and grip. Cutting-edge technological advances in design, construction, pattern and compounds. Best performance in its class - a street legal competition tire with the characteristics of a slick.

Features

- Evenly dispersed block stiffness - same level of stiffness in the center and the shoulder for stronger grip and traction, prevents irregular wear.
- Uni-directional V-shaped main groove enhances streamline form and also improves aquaplaning ability at high speeds.
- Wide-angled grooves increase block stiffness, further enhancing tire's grip and traction.
- Engraved pattern name along the groove creates an exquisite product image.
- Sub-grooves on the shoulder disperse block stiffness, improving ride comfort, grip and traction.
- Complete block stiffness provides excellent lateral stability in cornering.
