NY NORGESDEKK NETTBUTIKK

LANSERES I LØPET AV VÅREN 2017

Norgesdekk er importør og grossist av bildekk og felger. Med kjente merkevarer innenfor de forskjellige prissegmenter, inntar vi rollen som en av landsdelens ledende aktører innen både dekk og felg.

Vi ønsker å se at våre medarbeidere har optimal produktkunnskap slik at vi naturlig blir den valgte leverandør innen våre kategorier. Vi er svært opptatt av å kunne levere raskt og effektivt til våre kunder. Dette betyr at våre samarbeidspartnere slipper å ligge med store lager, og kan få rask leveranse fra et av våre lager i Norge.

SALGS, GARANTI- OG RETURBETINGELSER

Vi forbeholder oss retten til å endre priser uten foregående varsel. Alle ordrer vil bli fakturert med gjeldende pris på leveringsdato. Vi tar forbehold om feiltrykk i denne prislister. Alle priser er fakturagrunnlag uten mva. og evt. avgifter. Ved for sen betaling beregnes morarenter etter den til enhver tid gjeldende sats. Norgesdekk (ND) har eiendomsrett til alle varer levert av ND frem til fullstendig betaling (inkl. evt. renter) er betalt.

Ordrer under 3000,- netto, belastes med gebyr, kr. 125,-.

Hvis kunde mottar varer med skader påvirket av ytre omstendigheter/transport, feil antall eller mangler, plikter han å anføre dette på fraktbrev og få transportørens signatur, for så å straks og senest innen 7 dager melde dette til ND. Uten dette kan ikke ND rette opp i slike tilfeller.

Returbetingelser

Det er ikke returrett på noen varer med mindre dette er avtalt med ND. Retur av standard varer belastes med et gebyr på 10% returgebyr i tillegg til faktisk frakt. Spesialbestilte (ikke lagerstandard) varer tas ikke i retur. Varer som har vært monterte, brukt, ikke er i original emballasje eller er utgått tas ikke i retur. Det samme gjelder varer på spesielle kampanjer eller sell off. Varer som er kjøpt for mer enn 12 mnd. siden, tas ikke i retur. Alle varer som blir returnert i henhold til avtale skal ha kopi av faktura fra ND med, sammen med referanse på hvilken person i ND som har godkjent retur. ND betaler ikke returfrakt.

Garantibestemmelser

ND gir 2 års reklamasjonsrett for fabrikkfeil på alle felger og dekk, regnet fra salgsdato. Eventuelle reklamasjoner meldes til din selger i ND, på ND sitt reklamasjonsskjema. Dette skal gjøres straks problem er oppdaget. Uten at reklamasjonsskjema er korrekt utfyllt og innsendt, sammen med kjøpskvittering/faktura vil ikke

reklamasjonsbehandling skje. Bilder av dekk eller felg skal vise skade/problem. Og på dekk, produksjons uke og år, samt produksjonsnummer. På felg skal også baksiden av felg gjøres ren slik at info som står på felgens innside kan leses på bilde. Fraktkostnader ved en evt. innsendelse av produkt som ikke blir godkjent som garantisak, må dekkes fullt ut av kunde. Ingen produkter skal sendes inn til ND uten avtale om det, kun bilder og reklamasjonsskjema i første omgang.

For felger gjelder følgende forbehold og dekkes ikke av garanti:

Skader som følge av steinsprut eller andre ytre påvirkninger.
Skader som følge av feil bruk av verktøy eller feil verktøy.
Skader som følge av bruk av feil vaskemiddel eller vasking med feil redskap.
Skader som måtte oppstå ved feil lagring.
Felger som har polert, polert + klarlakk og chrome overflate skal ikke brukes vinteren og/eller i perioden med salting på veiene.

Dekkmerking fra EU

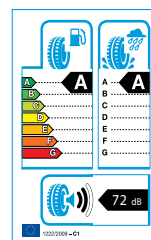

For å gi en standard informasjon om drivstofforbruk, våtgrep og utvendig støy, har EU introdusert en ny obligatorisk dekketikett, for alle dekk produsert etter november 2012.

Dekketiketten har til hensikt å gi sluttbruker informasjon om dekket, slik at valget skal bli enklere ved kjøp av nye dekk.

Drivstofforbruk - Rulleomstand
Drivstoffbesparelse er viktig både for å redusere CO2 utslipp og kostnader (det som måles og som har betydning for CO2 er rulleomstand). Man måler fra lavt drivstofforbruk, kategori A (grønn) og oppover til kategori G (rød). Kategori D brukes ikke. Forskjellen mellom hver kategori tilsvarer en besparelse i drivstofforbruket på mellom 0,10 og 0,15 liter på 100 kilometer, for en bil med et forbruk på 6,6 liter pr 100 kilometer.

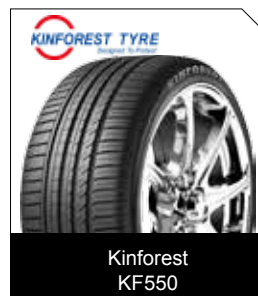

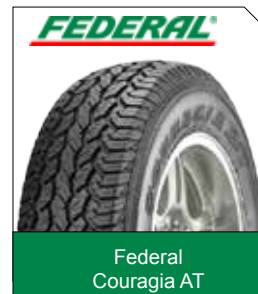

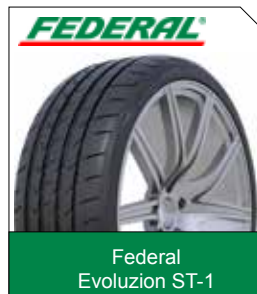

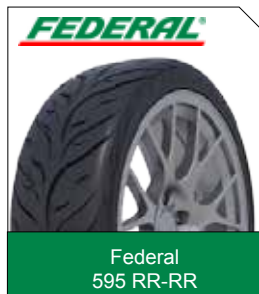

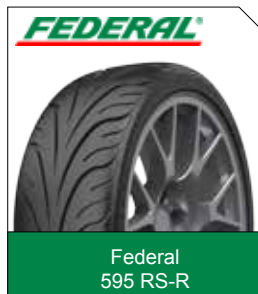

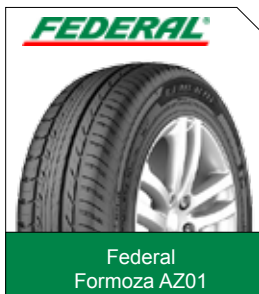

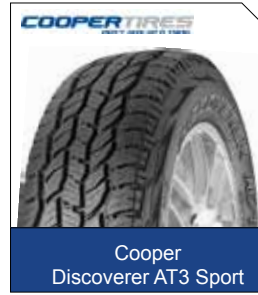

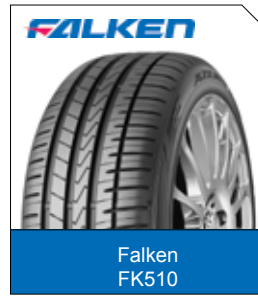

Våtgrep - Brems
Våtgrep er en kritisk sikkerhetsegenskap som relateres til dekkets evne til å stoppe raskt på vått underlag, og som kan beskrives bremselengde. Forskjellen mellom kategoriene tilsvarer en distanse på mellom en og to bil-lengder (3 til 6 meter) ved nødbremsing fra hastighet 80 km/t. Forskjellen i bremselengde mellom kategori A og F er mer enn 18 meter.

Støy
Det er utvendig støy fra dekkene og angis i desibel (dB). Jo mere sort på skalaen, jo høyere støy. Skalaen finnes ikke i vår liste, her er kun decibel oppgitt

Grunnet store valutavigninger forbeholder vi oss retten til å endre prislisten uten foregående varsel.

VINNER

Eagle F1 Asymmetric 3

UHP-dekk
TÜV-testet med 2,6 m kortere bremselengde
enn gjennomsnittet av konkurrentene.*

MADE TO FEEL GOOD.

* 2,6 meter kortere bremselengde på våte veier (9 % bedre resultat) og 1,3 meter kortere bremselengde på tørre veier (4 % bedre resultat) sammenlignet med gjennomsnittet av de 3 nyeste dekkene fra hovedkonkurrentene i UHP-segmentet (Michelin Pilot Sport 3, Bridgestone Potenza S001, Continental Sport Contact 5). Testet av TÜV SÜD Product Service GmbH i sept.-okt. 2015 på oppdrag fra Goodyear Dunlop. Nytt UHP-dekk, dekkdimensjon: 225/45 R17 91Y. Testbil: VW Golf. Teststeder: Mireval (Frankrike), Papenburg (Tyskland), TÜV SÜD PS Garching (Tyskland). Rapport nr. 713066268.

Våte veier

BLIR TRYGGERE MED TYSK TEKNOLOGI

Utilstrekkelig mønsterdybde fører til vannplaning

Vannplaning oppstår når det er mye vann i veibanen og dekkene mister kontakt med underlaget. Bilen begynner å flyte og sjåføren mister kontrollen. Men riktige dekk og tilstrekkelig mønsterdybde hindrer vannplaning.

Full mønsterdybde
Tilstrekkelig mønster
› Dekket opprettholder kontakt med veien

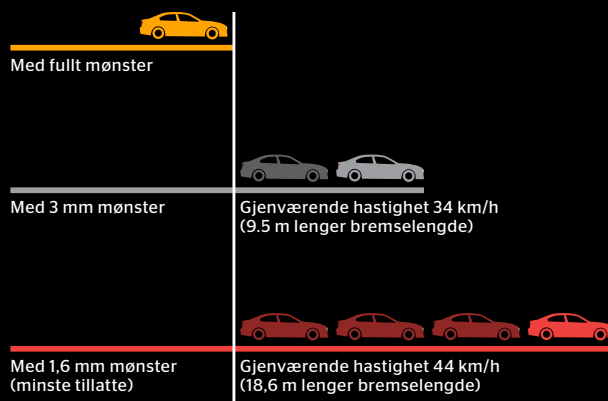

3 mm mønsterdybde
Mindre mønster
› Store mengder vann ledes vekk mellom dekket og veibanen
› Bremselengden øker

1.6 mm mønsterdybde (minste tillatte)
Utilstrekkelig mønster
› Store mengder vann under dekket hindrer kontakt med veibanen
› Betydelig økning i bremselengde

Mindre mønsterdybde gir lengre bremselengde *

Hvis mønsterdybden er mindre enn 3 mm, vil bremselengden øke betraktelig.

► **Alltid full kontroll med tysk teknologi: Continental anbefaler å skifte dekk ved 3 mm mønsterdybde for å oppnå maksimalt veigrep på våte veier.**

#ROCKTHEROAD

FEEL THE FREEDOM. EXPERIENCE THE DRIVE.

CONTROL AND PRECISION HAVE NEVER BEEN SPORTIER

Superior
wet and dry
braking

Precise and
responsive steering
at high speed

Very good
controllability especially
while cornering

VREDESTEIN

YOUR PERFORMANCE TYRES SINCE 1909

Sommerdekk 2017

MICHELIN CROSSCLIMATE

DET NORDISKE SOMMERDEKKET

ET REVOLUSJONERENDE NYTT SOMMERDEKK SOM SØRGER FOR SIKKERHET FRA TIDLIG VÅR TIL SEN HØST.

MICHELIN CrossClimate er utviklet for å håndtere det vekslende været som vår, sommer og høst kan by på i Norge. Alt fra tørt sommervær den ene dagen til nedbør og kalde temperaturer den andre, og til og med et uventet snøfall⁽¹⁾.

Finn mer informasjon på www.michelin.no

(1) 3PMSF = Three Peak Mountain Snow Flake. Sertifisert ytelse på snø (bremsing og trekkraft). Michelin CrossClimate er ikke godkjent som et vinterdekk i Norge i henhold til gjeldende lovgivning.
